Data Retention Policy. Customer invoices are retained for seven years to meet tax obligations. Support chat transcripts are deleted automatically after 18 months.

Backups. Production backups are encrypted with AES-256 and stored in two regions, us-east-2 and eu-west-1. Restore tests are performed every quarter and the results are recorded in the compliance tracker.

Deletion requests. Requests for deletion under GDPR must be completed within 30 days of verification. The data protection officer responsible for these requests is Miriam Okafor.
